

Dear A.A.C.E. Members, Board of directors, student-volunteers and business community,

As We face together **the COVID-19 pandemic**, we are experiencing constant and fast-breaking changes around the world **requiring us to monitor closely the guidelines issued by the World Health Organization (WHO), the measures taken by US government, State of Florida and South Florida authorities in their respective counties regarding the health and safety of their citizens.**

A.A.C.E. has taken measures to help mitigate the risks faced by our member companies, member professionals, student-volunteers, and Board of Directors, to allow for the communications of healthcare safety protocols and official news.

A.A.C.E. urge you to consider all measures set out by Federal, State and local authorities as well as the latest directives from Healthcare official sources to ensure you receive reliable and accurate information.

A.A.C.E. has temporarily suspended in-person conferences and meetings. However, we continue to maintain communication services to respond timely and effectively to the needs of our members via our website www.aace-usa.org and social media platforms ([facebook](#), [twitter](#))

A.A.C.E. send you our best wishes, hoping that you will remain alert and receptive to all health and safety recommendations so that soon we can overcome these challenging times.

Jorge Acevedo
A.A.C.E. President Board of Directors
and A.A.C.E. Board of Directors
